

D. Mentorship

Please attach documentation from two individuals for whom you have served as a mentor* in healthcare quality or related fields.

***Mentoring** is a dynamic and reciprocal relationship focused on growth and development of the mentee.

The mentorship relationship should:

1. promote professional growth above and beyond the mentees job duties.
2. be voluntary and not for a person normally supervised as part of the applicant's job responsibilities; coworkers not directly supervised by you are acceptable.
3. be goal orientated with clear, measurable objective/goals of the relationship.

Using the mentorship template below, each individual who was mentored must submit a written statement no greater than 500 words, addressing his/her professional growth and knowledge base in relation to your mentorship skills.

The written statement must (A) describe the mentorship relationship, (B) include specific measurable objectives/goals of the relationship that were planned, and (C) include measurable outcomes of the mentoring relationship as they related to the planned objectives. The applicant should include documentation of specific examples of the objectives or work completed. **All elements** must be addressed to evaluate eligibility of the mentorship submission. [Click here](#) to download the template as a separate document.

Please place all documents relating to this category in folder **V. D. Mentorship**.

Mentorship by NAHQ Fellowship Applicant Template

Fellowship Applicant:	Mentee Relationship to Applicant:
Mentee Name:	
Mentee Position Title:	Mentee Organization:
Dates you were mentored by applicant:
